Company Profile

Every successful company in this world has a vision and a unique way to do business and a way to present themselves in front of the customers. The first thing that makes an impression is the name of the company and its ability to convey the real feeling and the motto of the enterprise.

AMITY as the name suggests, refers to friendship, togetherness and unity, and without doubt this is the primary motto of our company. No company can be successful if it does not maintain a friendly, cordial relation with its customers and employees. The supporting pillars of this company are the eight universally accepted modern principles of success, viz.

- ☑ **Vision**
- ☑ **Speed**
- ☑ **Planning**
- ☑ **Accuracy**
- ☑ **Deadlines**
- ☑ **Teamwork**
- ☑ **Technology**
- ☑ **Global Thinking**

AMITY TechSys provide host of services related to Information Technology and allied areas. Some of current service areas include:

- ☑ **Web Hosting**
- ☑ **Web Development**
- ☑ **Software Development**
- ☑ **Web Marketing**
- ☑ **Web Consultancy**
- ☑ **Networking Solutions**
- ☑ **Hardware Related Services**

Application Details

Introduction:

- So you have web site?
- You have visitors coming to your site?
- You don't know how many?
- You don't know from where and when?

**** For Free Online ****
Demonstration Log Onto
www.AMITYTechsys.com/ vtrax

If your answer is "YES" to all the above questions, then you are at the right place. After reading this we are sure that you will be in a position to know how you can have total control about the visitor tracking of your prized web site.

This is about a one of its kind application which will free you of all your worries related to tracking visitors to your web site, in today's world of dynamism. We will talk about **VTRAX**.

VTRAX is an online application, brought to you by **AMITY TechSys, INDIA**, which keeps track of all visitors to your web site in real time. This is a totally web enabled, ASP based software which can be really useful to any website. As we know the days of static website and unpleasing display of information are no more prevalent, everyone requires dynamic display of information and content, in that case it is very much required to know visitor preferences, their requirement and interests. VTRAX can help you achieve this by providing you a very pleasant, secure interface and relevant content to keep an eye on your site traffic. Request a Brochure for complete details or go through the different sections of this web site for a comprehensive detail.

Benefits of VTRAX:

Therefore, from the above points we surely get an idea, how useful this application can be to you and your site or your client's site. The reason being: days when we used to have static websites are not prevalent now. Having a website is just not enough, rather keeping a track of your visitors, their tastes and preferences are of utmost importance, so that you can alter your site effectively and make the most out of it. Regular use of the application can tell you how many visitors have come, from what languages, at what time, on what date, etc. etc., which is really going to help you know whatever your visitors want form your site, what things are they more interested in, are you reaching to your target audience and related things. This is not just a simple hit counter, rather a much advanced & full fledged application with numerous interesting and useful features, not available anywhere else.

Why Choose VTRAX?

1. Available at best price, i.e. very affordable.
2. No unnecessary advertisements and useless information here and there.
3. Easily Navigable with soothing colors and clear graphics.
4. Personalized and secure.
5. No DLL registration problem.
6. No configuration problem.
7. Inbuilt Password Recovery Tool.
8. Inbuilt help and support for all technical problems and queries.

Some of the features of the "VTRAX" Application:

1. Fast, Reliable & Secure.
2. Installation has never been this easy.
3. No DLL registration required as in other application of such kind. Fully developed in ASP, therefore fully compatible with Windows NT Servers and Linux Servers with ASP support.
4. Clutter Free, no unnecessary advertisements, fully personalized.
5. Easily Configurable.
6. SQL Server and MS Access Compatible.
7. Support for both DSN and DSNLess Connections.
8. Email & Error Page Reseller Configurable.
9. Single Configuration File for all parameters.
10. Automatic "Renewal" alarm 15 days before expiry of application.
11. All program files and database to reside on client's web site.
12. Graphics and Style Sheets centrally/remotely manageable.
13. Centrally Manageable Ad/News Management System.
14. Inbuilt Help/Query/Support Center.
15. Inbuilt Comments/Suggestions Center.
16. Inbuilt Password Recovery System.
17. Online Database Download/Compact/Empty Feature. Removes the need to require any FTP Software.
18. Pintable, Summary Report Generation Tool.
19. Application Time out Capability, User Configurable.
20. Option to limit number of records in one page, in every report.
21. Easy & Well Defined Navigation.
22. Graphical and Percentage Representation of data.
