-: Company Profile:-

AMITY TechSys is a software solution providing company based in Bangalore, INDIA, with expertise in Internet related services and solutions, viz. Web Hosting, Web Application Development and Designing and host of other related services and support.

The company takes care of all requisites for setting up one's own online presence, right from domain and space registrations, conceptualizing, designing, integrating and finally hosting the same on the internet. The only thing the one has to do is to just give us a call or mail us their requirements and the rest will be taken care of by us. Other Services of the company are discussed in detail in the following pages.

Every successful company in this world has a vision and a unique way to do business and a way to present themselves in front of the customers. The first thing that makes an impression is the name of the company and its ability to convey the real feeling and the motto of the enterprise.

Therefore **AMITY TechSys** is a company, which provides services which caters to cutting edge web hosting and development solutions, Client based software, Networking Solutions, Hardware Solutions, Graphics and Multimedia related services, etc.

We are a company with a sole objective of providing the best of service at really competitive prices, and with surety to deliver the services on deadlines. Other Services of the company are discussed in detail in the following pages.

-: Company Motto:-

AMITY as the name suggests, refers to friendship, togetherness and unity, and without doubt this is the primary motto of our company. No company can be successful if it does not maintain a friendly, cordial relation with its customers and employees. The supporting pillars of this company are the eight universally accepted modern principles of success, viz.

- Vision
- Speed
- Planning
- Accuracy
- Deadlines
- Teamwork
- Technology
- Global Thinking
- **Our motto is to deliver the Right Solution at the Right Time at Right Price.**

We are always on lookout findings and implementing ways to providing ultimate customer satisfaction for our products and services.

-: Customer Focus :-

AMITY TechSys gives equal preference to all its customers, regardless of the size of company. The client base of our company includes corporate houses from various verticals of industry viz, manufacturing, information and service providers, NGO's, cafes, both locally and internationally based.

As said, "**A true diagnosis is three-fourths the remedy**", our focus lies on understanding in depth, the requirement of the customer before making any suggestion, and then coming out with a solution. It's not just taking the work haphazardly, doing it without knowing whether this is what the customer has in mind and will benefit from.

Therefore, our customer focus can be summarized in the given points:

- Best quality service
- Best priced service

-: Areas of Service :-

AMITY Techsys provides its customers, services ranging from simple hardware requirements to advanced software application, creating complete business value. The products and services available can be segregated under following heads:

✚ Domain Registration

- We register all TLD's (top level domains) and other allied domains :
 - .com / .net / .org
 - .ws / .tv
 - .info / .biz (min for 2 years)
 - .co.in

✚ Web Hosting

- We deal in both Windows 2000 and Linux Operating Based System with unmatched reliability and performance at all times and also affordable cost with plans starting at \$ 30 per (10 + 10) MB for Windows 2000 Hosting per year. Log on to our website for detailed server features.

✚ Web Designing and Re-designing

- Top quality website development services are provided, using the latest technologies for optimum results. We develop both static and dynamic websites using backend databases, depending on customer requirement. We use the latest tools available required to make high end, affordable, scalable solutions for our customers. Some of the technologies that we use for development are :
 - HTML & DHTML
 - ASP & ASP.NET
 - Basic and Advanced Scripting
 - Macromedia Flash, etc.

✚ Advanced Web Application Development

- Apart from creating static and dynamic websites, we possess expertise to create advanced, intelligent and database driven online applications which can ease business functions regardless of the distance factor and decreasing cost and also response time.

✚ Website and Data Translation Solutions in Foreign Languages

- AMITY TechSys relies on an experienced team of translators to provide fast, accurate and reliable translation service. Your given job is not only done by a single person, rather it goes through multiple translators doing double and triple checking to ensure that the end result you get is as accurate as it can be. Major languages include French, German, Spanish, and Japanese.
